REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art of record do not anticipate nor do they reasonably suggest the miter saw fence as claimed in claim 1. The closest prior art, Pistorius et al (US 5,327,653), teaches a miter linear measurement gage comprising, inter alia, a carrier platform (e.g. near 26); an elongate bar pointer (e.g. 22); and a measuring means (e.g. at 20). Fig. 1. However, Pistorius et al lacks the pointer disposed and structured as claimed. Another related prior art, Huntley et al (US 3,941,020), teaches an apparatus for cutting workpieces comprising, inter alia, an elongate bar pointer (42) having a notched free end (43) disposed as claimed. However, due to the design of Pistorius et al's device, it is the Examiner's opinion that there is no teaching or suggestion to combine the pointer of Huntley et al, since the pointer of Pistorius et al is parallel to the fence portion whereas in Huntley et al, the pointer is at an angle to the fence. Conversely, while it may be obvious to provide the digital measuring means to of Pistorius et al to the fence assembly of Huntley et al, Huntley et al lacks vertical rail elements that are spaced apart and coextensive defining the fence. Note Fig. 4 of Huntley et al. Due to the construction of the rail (e.g. 32) as being continuous rather than spaced apart, it is believed that there would be no teaching or suggestion in the references to modify the same. Thus, it is the Examiner's opinion that the above noted lacking features in combination with all the other recited elements of the claim is allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
